

## Features you can easily control.

Take advantage of an extensive range of call management features, from Call Recording and Enhanced Voicemail to customisable settings for Sites, Groups and Departments, all operated through an easy-to-use web interface.

## One number anywhere.

Integrate your fixed and mobile capabilities so that calls to a single number can be moved seamlessly between devices.

## Enable flexible working.

Enhance staff capabilities by enabling flexible work environments through hot-desking, home working and extending the service to mobile devices.

## Business continuity.

Don't let unexpected events such as snow, floods, utility roadworks or strikes disrupt your business. Continue to make and receive calls, whatever the circumstances.

## Number choice.

Keep your existing numbers or get new ones. Extend your business reach and use any local area number no matter where you are located.

## Extensive multi media support.

Enhance your communications with extensive media support, such as instant messaging, voice, video, desktop/application sharing and more.

## Lower call costs.

Enjoy all the cost benefits of IP telephony, including free site-to-site calls and cheaper call rates. Benefit from free calls between fixed and mobile devices when you combine Horizon with our mobile services.

## Any device, anywhere.

Enable users to access business communications and collaboration services from any device, whether Windows, MAC, Android or iOS, no matter where they are, with desktop and mobile apps.
